At the Iowa Family Support Impact website you can learn more about family support services and their impact on Iowa Families. Learn about how services like home visiting is having a positive impact on maternal health and school readiness. <https://iowafamilysupportimpact.org/>

Bringing Quality Professional Development to the Nation

The Iowa Department of Public Health has assisted the nation to provide high quality professional development opportunities for over 11,000 professionals last year residing in all 50 states, U.S. Territories and Tribes. We've helped to lead the effort to pivot to virtual services during the COVID-19 pandemic with the home visiting rapid response effort. If you would like to learn more, go to <https://institutefsp.org/>

¹ Statistics are from the DAISEY data system and are limited to families served during the FY'20 with state or federal funding. Programming is supported by the Iowa Departments of Education, Human Services, Public Health and Early Childhood Iowa.
